Taxation of construction and assembly works / WTS Alliance Newsletter

Roman Pecháček
Tax advisor

Construction and assembly works are among the most frequent cases in which a permanent establishment arises not only in the Czech Republic. Thus Czech law, in combination with the relevant double taxation treaty, is of key importance.

WTS Alliance, which includes as an independent member our firm, WTS Alfery, is also aware of this fact. That is why in order to provide basic clarification of this issue we publish a Newsletter on the taxation of construction and assembly works.

Enclosed you will find this Newsletter.

It deals both with the present legal situation and the future outlook in 12 selected countries across the globe, such as Germany, Poland, China and South Korea.

In particular, we would like to draw your attention to the article dealing with the Czech Republic that is available on page 6 of the enclosed newsletter.

The newsletter is published in English. Other issues are available at www.wts.com.
